## 1959 INTRODUCTIONS

### IRIS

JET STREAM- A very lovely dark violet self. According to Wilson it is 738 or Klugia zeylanica. The falls are like velvet and are 3 inches wide by 3 3/4 inches long. Falls flare jauntily and are ruffled. There is a sheen and iridescence over them which adds to the beauty. Beard is purple, slightly tipped white. Style arms dark violet. Standards are of good width and hold together well. This iris is a big dark beauty and not the least floppy. The stem is strong, about 32 inches and stands up in wind and rain. Parentage (Fay 47-10) X Black Hills, but is larger and darker than either parent. You will love this deep violet beauty. Branching good. Fertile both ways. Price-----\$15.00

ELECTRIC BLUE- According to Wilson this is 4/ or Lobelia Blue. It is very beautiful grown in a clump. The flower is medium to large. The falls are wide and ruffled with a small light area at the haft. Standards are ruffled and are strongly held together. Falls flare jauntily. Branching and placement excellent. Beard is white tipped yellow. Height 40". This is a wonderful garden iris and never blows over in a strong wind or rain. Its effect in the garden is light blue. You will like this Electric Blue color as it is different. Splendid grower. Fertile both ways. A good supply and I can price it reasonably. (Distance X Jane Phillips). Price-----\$10.00

### DAYLILIES

LUSCIOUS LEMON- This is a 6 inch lemon self. One of the most beautiful lilies. Petals and sepals same color, very wide and overlap, recurving at the tip. The color extends to the bottom of the throat. Plain edge, very tailored with heavy substance. Branching good. 44"-48" with strong stem. The color does not fade but stays a beautiful light lemon all day. I have seen nothing like it. A strong grower. I have a good supply. Hence the low price for such high quality lily. Can be seen in the Shenandoah test garden. Price-----\$15.00

CLARA HOWARD- I have been breeding for pink daylilies for several years and this is one of my best ones. The flowers are large, being 6 inches across. The color, according to Royal Hort. Soc. Chart, is 5/6 or shell pink. The throat is chartreuse and forms a star in the throat. Edges of petals ruffled. Both petals and sepals slightly recurved. Height 42" with strong stem. Branching good. Parents - Fulva Rosea X Maid Marion. You will love this lily. It is different.  
Price-----\$10.00

## 1958 INTRODUCTIONS

### IRIS

DOROTHY BEATTY- This is a very large iris of rosy vinaceous purple, the standards of a lighter color than the falls. There is a rosy, opalescent suffusion over the entire flower. Both standards and falls are edged with a golden brown laced edging. Haft is golden brown and the beard is yellow. Substance is like leather, and it takes the wind and rain well. Branching good. Height about 34-36". Standards are closely held together and the falls flare out just right. Fertile both ways. This color is new. I have seen none just like it. Visitors have admired it for several years. It received C. Of C. in '50. (A.I.S. bulletin 120, under 50-50). A splendid breeder; very vigorous grower. Flowers are broad petaled and well proportioned. Midseason-----Each net \$15.00

GIMA SAN- This is very large ivory self, with a yellow beard. We need more iris of this color in our gardens. Midseason. The standards and falls are wide giving a massive appearance. Substance is excellent, and branching good. The standards hold together giving that compact, strong appearance. Edges of both standards and falls are slightly laced. Height 34-36". Fertile both ways. Parents (Snowqualmie X Evenglow). Much admired by visitors. Good grower-----Each \$10.00

MOOD MAUVE- A huge rose lavender with a tangerine beard, and the edge of the standards and falls have a slight lacing. The substance is excellent, and the flower holds together well. There is a cream area around the haft with a few light brown lines which add to the beauty of the flower. Branching and placement are good. Fertile both ways. A good grower and a fine bloomer. A very lovely flower. This flower is a strong producer. Ea. \$7.50

### FORMER INTRODUCTIONS

EVENGLOW ('48) -A huge, rosy-lavender, with splendid substance and fine form. Has a strong stalk, with well placed flowers. A leader in its color class. Beard yellow-----Each \$0.75

ETTA LOU- A large, light blue, of splendid form, good substance, height 36". One of the best light blues. A fine plant for a clump. Beard yellow.. .75

HOWDY-('42) -Very large, ruffled, icy white, with yellow beard. Buds are sky-blue, but the flowers fade to a lovely blue-white, strong stalk, blossoms well spaced. Ranks with the best whites----- .75

PHRADIE WELLS (50) -Large flower, strong stalk, 38". Color is a blend of orange, apricot, and pink. A very beautiful blend, orange beard. Makes a striking clump in the garden----- .75

SONATA IN GOLD- A lovely cream, large flower, sturdy stalk, 36"----- .75

WINEBERRY ('46) -Large, smoky violet, edged brown, silver sprinkling over all, 36", beard orange----- .75

### TERM OF SALE

#### Read Before Ordering

Stock is all first class, true to name and free from disease, state inspected. Cash with order. No C.O.D. please; no stamps. Orders for \$5.00 or over are sent you prepaid. If order for either Iris or Daylilies is less than \$5.00 please add 50 cents to help pay postage. Please write your name and address plainly. Give your preference of colors so we may send you something you will like. Get your order in early. First come first served. We will not substitute if the second choice is not given, and if the stock is sold out, we will refund the money.

Iris shipments are started about July 1st. We make shipment until about September 10.

Daylilies may be shipped any time after blooming. We like to begin shipping August 1. Make out your daylily order on a separate sheet as it must be shipped separately. We prepay parcel post on orders amounting to \$5.00 or more. If order is for less, add 50 cents to help pay postage.

HYBRID SEED

For many years I have been selling hybrid seed, both Iris and Daylilies to people who are interested in growing them from seed. It is a very interesting hobby. Several of my customers have written me that they have had splendid results. Some have introduced iris produced from these seeds. Old Mother Nature has no secrets. You are just as likely to get a "break" as I am. When they "happen" they are worth a lot to fanciers. I am using only the very choicest parents in the different color classes. All cannot be named here. I am selling seeds of both Iris and Daylilies in three different classes.

IRIS ( 25 seeds to a packet)

CLASS I Seeds from crosses in which parentage can be given. This includes crosses for red, pink, yellow, white, blue, etc. I usually make a number of crosses in each color----- per pkt. \$2.50  
CLASS II Seeds from those special iris with lacy edging---- per pkt. \$3.00  
CLASS III Mixed seeds. Seeds from white, red, blue, yellow, etc., crosses are placed together. This is a very good buy----- per pkt. \$1.00  
I always give good count.

DAYLILIES ( 50 seeds in a packet)

CLASS I Seeds from the very finest crosses available. Parentage given  
Seeds from yellows, red, purples, blends etc.----- per pkt. \$2.50  
CLASS II Seeds from the finest pink crosses. These seeds are valuable.  
Parentage given----- per pkt. \$3.00  
CLASS III Mixed seeds from many fine crosses. Only the best parents are used. A splendid buy----- per pkt. \$1.00
